### Motorised Damper Diverting Branch (230V AC) SE/SE/SE

Code
MDDB150
MDDB200
MDDB250
MDDB300
Other sizes can be built to order

Motorised Damper Diverting Branch

#### Note:

- Motorised dampers have the following features:
  - Fitted with nylon bush bearings
  - Fitted with leak resistant blade edge seal
  - 24V AC available on both standard and spring return (SR) models. POA
  - Damper Motors feature one wire control facility
- Most units can be assembled from ex stock components (subject to prior sale).
- Diverting Branches are fitted with one damper motor and link arms between damper blades.

BE - Big End  
SE - Small End

## Zone Dampers

### Zone Damper Sets

A cost effective simple Zone Control System is possible using the following MILDT sets (which comprises of an extended motorised damper c/w duct thermostat and wall thermostat).

The duct thermostat signals whether the central plant is in heat or cool mode, the room thermostat will automatically operate the damper to heat the zone if plant in heat mode or cool the zone if plant in cool mode.

Code	Size
MILDT150	150
MILDT200	200
MILDT250	250
MILDT300	300

For Kilargo Fire dampers see p133 - 133n
